

Skin Care Lavender & Comfrey Soap: Organic olive oil + olive leaf extract base

One of the nicest things about olive leaf is it's emollient, preventative and restorative properties. Your skin is your largest organ and is exposed to damaging pollution daily. Wash with olive leaf soap and apply our amazing face + body cream to combat environmental attacks.

Our soap is special because of the organic olive oil and olive leaf extract it contains. Olive leaf extract is our secret healing ingredient that your skin will adore.

Olivus® the Olive Leaf Source since 1998

Olivus organic olive oil based Lavender & Comfrey bar soap gently cleans and restores normal, dry or damaged skin.

Comfrey is a natural skin cell regenerator used for centuries as a healing agent to restore skin to its natural balance and glow. Olivus soap gives you a smooth clean wash with essential moisturizing and healing without any oily feel.

Get the benefit of olive leaf topically when and where you need it. Olive leaf powder extract is our secret healing ingredient that your skin will adore.

Don't be fooled by cheap soaps dressed up to look expensive. Many smooth bar soaps are mass-produced to low specifications. Our original craftsman soap is long lasting and is guaranteed to nurture your skin while cleaning. Soap is something we use every day, YOU deserve the best with Olivus.

Olivus soap has a PH of only 7.95 which is nearly neutral, other soaps are commonly PH of 10 which rob your skin of moisture. Comparable soaps sell for \$7 to \$9 a bar!

Olivus soap contains NO artificial fragrances or colors. Net Wt. 3.75 oz. (105g) each.
